(If yes, furnish details on a separate sheet)

3. Is there a likelihood that the Applicant would not proceed with this project without the Agency's assistance? (If yes, please explain why; if no, please explain why the Agency should grant the benefits requested)

Yes No

Market rate taxes make it infeasible to obtain bank financing needed to construct and operate the project. Additionally, overall project costs, burdened with "market" real estate taxes render the project undevelopable. Further, carrying costs on the project would be too high and unsupportable during the period when rent payments have not yet commenced.

4. If the Applicant is unable to obtain financial assistance from the Agency for the project, what would be the impact on the Applicant and on the municipality?

The project would not move forward. The Project meets a demonstrated need for transit-oriented development in the Village of Lynbrook, the Town of Hempstead and Nassau County at large. Without the requested assistance, we would be unable to meet this need. Further, the municipality as well as the Town of Hempstead would forgo future real estate tax income, the creation of 300 construction jobs, numerous jobs created by the outsourcing of contract services necessary for the operation of the building including landscaping, maintenance, trash removal, window washing, etc., as well as permanent jobs that would be sourced locally.

5. The Applicant understands and agrees that the provisions of Section 862(1) of the New York General Municipal Law, as provided below, will not be violated if financial assistance is provided for the proposed project:

§ 862. Restrictions on funds of the agency. (1) No funds of the agency shall be used in respect of any project if the completion thereof would result in the removal of an industrial or manufacturing plant of the project occupant from one area of the state to another area of the state or in the abandonment of one or more plants or facilities of the project occupant located within the state, provided, however, that neither restriction shall apply if the agency shall determine on the basis of the application before it that the project is reasonably necessary to discourage the project occupant from removing such other plant or facility to a location outside the state or is reasonably necessary to preserve the competitive position of the project occupant in its respective industry.
