No

Applicant plans to redevelop the site and construct a new Class-A warehouse-distribution facility to attract and retain quality tenants and is seeking assistance from the Agency, including a phase-in of increased real estate taxes to offer prospective tenants stability and predictability for future taxes through a PILOT. Applicant’s investment in this project would come at great risk without financial assistance from the Agency due to several risks including

(i) high construction costs in Nassau County, (ii) above-standard site-work and construction costs to comply with FEMA floodplain requirements for the project, (iii) above-standard and difficult-to-predict costs to comply with NYSDEC environmental regulatory requirements for the project, (iv) high borrowing costs and difficult-to-predict future changes in capital markets, and (v) high and unpredictable real estate taxes. Applicant is requesting the Agency’s assistance to help overcome these risks and ensure a feasible investment at prevailing current market conditions to construct the project and retain quality tenants.

4. If the Applicant is unable to obtain financial assistance from the Agency for the project, what would be the impact on the Applicant and on the municipality?
